

3 Nouns. 1 Adjective.

This is fun, but more challenging than other speaking games.

Set up and play:

1. A student stands at the front of the room.

2. He/she has to name at least three nouns that ONE adjective describes.

For example, *sun*, *banana* and *lemon* are the nouns.  
The one adjective is *yellow*.

3. Students from the group try to guess the adjective.
4. The student speaking has to choose a student who is seated, quiet and has his/her hand up to guess.

5. Whichever student guesses correctly, takes the next turn.

Because this game is more challenging, it may be helpful to divide the group into pairs and have partners work together to choose an adjective and then list 3-5 nouns that it describes.

If your class is focusing on specific adjectives, you could assign one of those adjectives to each pair.

6. Continue play until everyone has had a turn or the allotted time runs out!
