Dear Mom and Dad,

I really want a kitten.

First, I am responsible. Every day, it will be up to me to give it food and water. I will need to clean its litter box too.

Second, I can do this for a very long time. This kitten will need me for many years. If the kitten gets sick, I will learn to love and care for it. If it causes trouble, I will need to train it to do the right things.

Last, I know it will cost. I will have to spend time taking care of it. I may also have to give up other fun activities to care for it. I will learn the cost of food, toys and medical care too.

I know that having a kitten is not easy. But, I feel ready to work hard for it.

What do you think?

I love you.

Sally
