Section 2 states the similarities between kinkajous and Winnie the Pooh. It also states the main idea. This section is done for you.

Winnie the Pooh and kinkajous both love honey. As a result, they are often called "honey bears." Winnie the Pooh eat his honey from a jar. Kinkajous use their long tongue to eat honey right out of a bee hive. While, these two creatures love honey, they are different in almost every other way.

Section 3: Using your own words, write facts about Winnie the Pooh.
